### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance:

Claim 1 recites the combination of a vehicle comprising a gearshift unit, a gearshift lever housing, a gearshift lever, an active position range, a neutral position, a tilted position where the lever is aligned in or below the seat plane of the driver's seat, a logic unit for activation of a parking brake when the logic unit receives a first signal indicating that the gearshift lever is in the tilted position and the logic unit receives a second signal indicating that the vehicle is stationary. The aforementioned combination is not shown or taught by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Talak et al. ('559), Crabb et al. ('317), and Larson et al. ('563) disclose other devices having means for manipulating the parking brake in response to movement of the shift lever.
